SMPC
SOUTHERN MICHIGAN
PAIN CONSULTANTS

You will receive a reminder call prior to your appointment. If you have any questions or concerns, please call us between 8:30AM-5:00PM at (877) 377-6227 and select option 3.

In order for us to address your needs at the time of your appointment we ask that you please;

1. Bring your License/ID and Insurance card to each appointment. A *digital picture will also be taken at this initial appointment* for your electronic medical chart.

2. Plan to update or verify your personal information at each appointment.

3. Complete the enclosed Patient Information Forms and bring them to your appointment. This information will be used by the provider during your evaluation. Failure to have the forms completed prior to your arrival may result in your appointment being delayed or rescheduled.

4. Please arrange for a driver to arrive with you for your appointment. Some procedures may require the use of light sedation. Please be aware that you must have a driver present in the waiting room in order to receive sedation.

5. Anticipate being at our office for your initial appointment for approximately two (2) hours.

6. Please remember that your appointment time is set aside specifically for you. If you are unable to keep an appointment, you are required to provide us with a 24-hour notice. Failure to do so will result in a $25 reinstatement fee being applied to your account. This fee is not covered by your insurance. You will be responsible for paying this fee before you are able to schedule another appointment.

FINANCIAL POLICY
Our office participates with a variety of insurance plans including but not limited to:

Medicare	Priority Health	Blue Cross Blue Shield	HAP	Aetna	Cofinity	United Healthcare

If you have questions regarding your insurance, we will try to help. However, questions relating to specific coverage issues must be directed to your insurance company's member services department. Their telephone number should be listed on the back of your insurance card.

Referrals: Many insurance plans require a referral from your primary care physician to be seen by a specialist. We will contact your insurance carrier to arrange for a referral but ask that you follow up with them too. If a referral is required but not secured, your visit may be rescheduled or you may be financially responsible.

All applicable co-payments, deductibles, co-insurance and personal balances, both current and prior, are due at the time of service unless other payment arrangements have been made. In some cases, you may be asked to pay the balance of your account or make payment arrangements prior to making your next appointment.

For your convenience, we accept cash, checks, VISA, MasterCard, Discover, American Express and money orders. You may also pay your bill online through our website (shown below). *Please note that there is a $25.00 service charge for all returned checks.*

We understand that there may be times and circumstances that come up where you are unable to pay your entire bill. In these situations it is very important that you contact our Billing Office (877-377-6227) so a financial representative can assist you in setting up a reasonable payment plan and to keep your account from being sent to a collection agency.

If you fail to meet the financial obligations agreed upon in this financial policy or have other payment arrangements made, your outstanding balance will be sent to a collection agency. You will be required to pay your entire balance and any collection agency fees, up to 25% of your account balance, before being scheduled for any further appointments.

If you have billing related questions, please contact our billing office at (877) 377-6227 and select option 2.

Welcome to SMPC. The purpose of this letter is to let you know what to expect from me and our team and to answer some questions that we respond to on a regular basis.

Our practice is not built on a single course of treatment, but on the best use of multiple team members and options. Your treatment with us may involve medications, injections, behavioral health and/or physical therapy. Our goal is to do what works for you; our recommendations are based on a thorough assessment of your current health and your goals for improvement.

Medications may be used to help manage pain, often times they can be a very effective part of a pain management plan. However, we are always looking to find the root cause of the problem so that we aren't masking the symptoms. Pain can be a major hurdle to many daily activities so behavioral therapy including biofeedback and counseling may be a vital component of care. In addition, physical therapy can provide just the right touch to compliment your overall treatment goals.

We use injections for two main reasons. One, is to help diagnose the source of the pain, the second is that it can be therapeutic in reducing pain. Back pain provides an example. Some sources of back pain may be very obvious such as a large disc herniation. In other cases the exact source of back pain may be less certain. I put medications at different spots in the back to help diagnose & treat the source. Not every patient is a good candidate for injections, frequently they can be used to help a person feel better. Injections can initially be used to break the cycle of constant debilitating pain. As a continued treatment, longer lasting injections can be used to encourage activity and reduce the need for medications. Injections coupled with behavioral & physical therapy and/or medication can be a winning combination for helping you to get back to daily activities and to have reduced pain.

Again, I welcome you to my practice and I hope this letter answers a few of your questions. I realize that you may have additional questions and I welcome the opportunity to address them when we meet at your first appointment. I appreciate the confidence you have by trusting your care to me and my entire team. We are all eager to meet you and to help you manage your pain.

Sincerely,

Southern Michigan Pain Consultants
